

STEPHENSON EQUIPMENT, INC.

Reliability & Performance

Cranes • Parts • Service • Safety

Top Notch Equipment & Service

Dependable Equipment

“Any heavy equipment we need, we get from Stephenson. We’ve purchased a RT crane, a truck crane, and a 300-ton crane from them. We’ve also rented all of our crawlers and Shuttlelifts from Stephenson. We used one of their crawlers for steel application, one of their RTs for concrete work, and their Shuttlelifts for bigger projects, including bridge building and bridge reinforcement jobs.”

Excellent Parts and Service

“Stephenson’s service is outstanding. They bend over backwards to help their customers. If something isn’t working, if I need a part, or if I need service at odd hours, they go out of their way to help me. They make it as easy as possible for me to use their equipment.

“Stephenson’s parts department is excellent. One major reason we use Stephenson is because their employees are straight-forward. They tell you if they have something, and they tell you flat out if they don’t have something. If they don’t have a part, they will make sure I get that part as quickly as possible. Even if it’s a part that they don’t normally deal with, they will still help you by either giving you new leads or going above and beyond to get it for you yourselves.”

Experienced Employees

“I’ve been working with Stephenson since 2001. My salesman, Matt Essig, is fabulous, and one of the main reasons we keep working with Stephenson. He has built himself and the company a reputation for going out of their way to help customers. Not only has he helped with my machines, but he has also helped with business generation, recommending my company to people looking for construction help. I recommend Stephenson to everyone looking for cranes, crane gear, or anything related to lifting and construction equipment. Their service is unbeatable.”

— Ken Malpezzi,
Operating Engineer, CMC Equipment Rental, Inc.

About CMC Equipment Rental, Inc.

Based out of Feasterville-Tresove, Pennsylvania, CMC Equipment Rental, Inc. has been servicing Pennsylvania, New Jersey, and Delaware since 1965. They provide various hydraulic and conventional truck crane rentals, including cranes with up to a 300 ton capacity and a 400 foot boom.
