GROVE GRT8120

FEATURES

Designed after gathering feedback from crane owners and operators, the GRT8120 is loaded with the features and reliability you demand.

- Compact dimensions with self-rigging counterweight allow for efficient and easy transportation to the job.
- Wireless rigging remote enables fast and convenient setup.
- Boom Configurator mode increases efficiency and simplifies telescoping operation.
- oCSI provides enhanced diagnostics and on-board monitoring systems for easy serviceability.
- ECO mode supports intelligent power management and decreased fuel consumption.

Unmatched reach with compact carrier

Class-leading lifting performance is enhanced by the 37.2 ft to 197 ft (11,3 m to 60 m) seven-section MEGAFORM™ boom with TWIN-LOCK™ boom pinning system, which maximizes capacities by reducing weight inside the extended boom. The 57.6 ft (17,6 m) manual or hydraulic swingaway jib with offset capability to 45° increases the ability to reach over obstacles.

MAXbase Variable Outrigger Positioning

MAXbase provides increased versatility on the jobsite by allowing asymmetrical outrigger spans. This makes it easier to work in congested jobsites with obstructions, and allows for increased capacities when comparing to the standard 360° load charts. The innovative smart-sensing outrigger monitoring system offers reliable accuracy.

Improved Access and Jobsite Set-up

Flat aluminum decking, additional storage compartments and a full LED lighting package with new side-mounted carrier lights improve access and jobsite set up.

GROVE.
REAL.
TOUGH.

Backing Up Our Promise

Our GRT line of Rough Terrain cranes have been designed from the ground up to provide class-leading specifications, and have undergone extensive testing to ensure they provide industry-leading quality and reliability. We stand behind our new line of GRT cranes, and we are willing to prove it. With new three, four or five-year extended warranty programs as well as a new two-year standard warranty, our GRT line of cranes are built to be **GROVE. REAL. TOUGH.**

Full-Vision Cab

The GRT8120's full-vision cab was designed with operator comfort, visibility and productivity in mind. Additional width, redesigned armrests and 20° cab tilt maximize the operator experience. Standard features include tilt/telescoping steering wheel, USB charging port, electronic seat adjustments, high-output heating and air conditioning system, large pivoting cup holder, windshield sun visor, added storage behind the seat, and three camera package. Additional optional equipment includes radio with Bluetooth and heated seat.

The world's most advanced crane service and support network

WORLDWIDE SUPPORT NETWORK

Manitowoc's customer service extends beyond any borders. Our locations span the globe, covering five continents. No matter where the job takes you, you have a business partner nearby.

PARTS

Locating the correct part quickly is vital to managing your operations. With Manitowoc Customer Support, the parts you need are just a phone call or click away.

LIFT SOLUTIONS

The Manitowoc Crane Lift Solutions Team is dedicated to helping customers with unique and customized applications for their Manitowoc cranes, regardless of product line.

TRAINING

Manitowoc Training Centers offer courses for operators and technicians across the globe to provide in-depth instruction on crane operation, maintenance, and troubleshooting procedures.

EnCORE

Manitowoc's EnCORE program maximizes your investment by rebuilding or repairing your crane to extend its life significantly. EnCORE also includes remanufactured parts.

MANITOWOC FINANCE

Manitowoc Finance gets you in the field with the right equipment by giving you access to flexible, affordable financing. With Manitowoc Finance, equipment can be acquired with virtually no cash outlay, and unlike traditional lending, our financial products don't affect bank lines of credit. Your capital resources remain intact for times when you need ready access to cash.

Competitive rates with flexible financing options and payment schedules put you in control.

Did you know? Manitowoc Finance can finance **used** Manitowoc cranes. You can also **trade-in** your used fleet for upgrade and get financed by Manitowoc Finance.

NOTES FOR PICK & CARRY ON RUBBER

1. Capacities are in pounds and do not exceed 75% of tipping loads as determined by test in accordance with SAE J765.
2. Capacities are applicable to machines equipped with Titan ND LCM MCS – 29.5x25 (34 ply) tires at 76 psi (5.2 bar) cold inflation pressure.
3. Capacities are applicable only with the machine on a firm level surface.
4. On rubber lifting with boom extension not permitted.
5. For pick and carry operation, boom must be centered over front of machine, mechanical swing lock engaged, and load restrained from swinging.
6. Axle lockouts must be functioning when lifting on rubber.
7. All lifting depends on proper tire inflation, capacity and condition. Capacities must be reduced for lower tire inflation pressures. See the tire inflation table for tire specifications. Damaged tires are hazardous to safe operation of crane.
8. Creep – not over 200 ft (61 m) of movement in any 30 minute period and not exceeding 1 mph (1.6 km/h).

THIS CHART IS ONLY A GUIDE AND SHOULD NOT BE USED TO OPERATE THE CRANE.

The individual crane's load chart, operating instructions and other instructional plates must be read and understood prior to operating the crane

NOTE: For loading and unloading, the boom must be centered over front of machine and mechanical swing lock engaged. Hookback and overhaul weight/ball must be restrained from swinging.

THIS CHART IS ONLY A GUIDE AND SHOULD NOT BE USED TO OPERATE THE CRANE.
The individual crane's load chart, operating instructions and other instructional plates must be read and understood prior to operating the crane

LOAD HANDLING

Weight reductions for load handling devices

Auxiliary boom nose	88 kg (194 lb)
Hook blocks and overhaul weights:	
100 t (112 USt), 7-sheave	1140 kg (2513 lb)+
75 t (83 USt), 5-sheave	1070 kg (2359 lb)+
45 t (50 USt), 3-sheave	770 kg (1698 lb)+
26 t (29 USt), single sheave	535 kg (1179 lb)+
11 t (12 USt), overhaul weight	294 kg (648 lb)+
9 t (10 USt), overhaul ball	310 kg (683 lb)+

*Refer to rating plate for actual weight.

Line pulls and reeving information

Hoists	Cable specs.	Permissible line pulls	Nominal cable length
Main	19 mm (3/4 in) 35x7 Class rotation resistant (non-rotating) Min. breaking strength 38 918 kg (85,800 lb)	7784 kg (17,160 lb)*	250 m (820 ft)
Auxiliary	19 mm (3/4 in) 35x7 Class rotation resistant (non-rotating) Min. breaking strength 38 918 kg (85,800 lb)	7784 kg (17,160 lb)*	185 m (607 ft)

The approximate weight of 19 mm (3/4 in) wire rope is 1.93 kg/m (1.3 lb/ft).

*With certain boom and hoist tackle combinations, the allowable line pull may be limited by hoist performance. Refer to Hoist performance table for lift planning to ensure adequate hoist performance on drum rope layer required.

Hoist performance

Wire rope layer	Hoist line pulls		Drum capacity (ft)	
	Two speed hoist		Layer	Total
	Low	High		
Available lb	Available lb			
1	24,100	15,000	111	111
2	22,200	13,800	120	231
3	20,600	12,800	130	361
4	19,200	11,900	139	500
5	18,000	11,200	149	649
6	16,900	10,500	158	807

*Refer to Line Pulls and Reeving Information table for max. lifting capacity of wire rope.

Synthetic rope layer height may vary and may reduce available line pull per layer.

Tire inflation

Size (front and rear)	TRA Code	Lifting service, general travel and extended travel
		Static, creep and 2.5 mph (4.0 km/h)
29.5 x 25 - 34 PR	E-3/L-3	5.2 bar (76 psi)

Working area diagram

Bold lines determine the limiting position of any load for operation within working areas indicated.

THIS CHART IS ONLY A GUIDE AND SHOULD NOT BE USED TO OPERATE THE CRANE.

The individual crane's load chart, operating instructions and other instructional plates must be read and understood prior to operating the crane

SPECIFICATIONS

Superstructure

Boom

BOOM: 11,3 m – 60 m (37.2 ft – 197 ft) seven-section MEGAFORM™ boom with TWIN-LOCK™ boom pinning system. Maximum tip height: 63.1 m (207 ft)

Boom Nose

Five nylon sheaves mounted on heavy-duty tapered roller bearings with removable pin type guards. Quick reeve boom nose. Removable single sheave auxiliary boom nose with removable pin-type rope guard.

Boom Elevation

Single hydraulic cylinder with integral holding valve provides boom elevation from -3° to +80°.

Manual Bi-Fold Swingaway Extension*

10,5 m – 17,6 m (34.5 ft – 57.6 ft) bi-fold lattice swingaway extension. Offsets at 0°, 20° and 45°. Stows alongside base boom section. Includes wireless rigging remote. Maximum tip height: 80.8 m (265 ft).

Hydraulic Bi-Fold Swingaway Extension*

10,5 m – 17,6 m (34.5 ft – 57.6 ft) bi-fold lattice swingaway extension. Hydraulically offsets from 0° to 45°. Controlled from crane cab. Stows alongside base boom section. Includes wireless rigging remote. Maximum tip height: 80.8 m (265 ft).

Crane Control System

Rated Capacity Limiter (RCL) with graphical display. Load moment and anti-two block system with audio-visual warning and control lever lockout. This system provides electronic display of boom angle, boom length, load radius, boom tip height, maximum permissible load, actual load and warning of impending two-block condition. Also includes an Operating display which shows the crane operating indicators, levels, warnings and faults. Other features include a Working Range Limiter (WRL) which allows the operator to preselect and define working areas. If the crane approaches the operator preset limits, audio-visual warnings aid the operator in avoiding obstructions. ECO mode system to control engine rpm to lower noise and improve fuel consumption. Operator-programmable function speeds and ramps. On Crane Service Interface (oCSI) provides on-board diagnostics.

Cab

Operator-controlled 20° hydraulic cab tilt, full vision; all steel, galvanealed construction with acoustical lining and tinted safety glass throughout. Deluxe seat with electronic seat controls and headrest, incorporates armrest-mounted electronic programmable single-axis or dual-axis controllers and a jog dial for easy data input. Tilt/telescoping steering wheel with controls incorporated into the steering column. Other standard features include heater (hot water), circulating air fan, high-output air conditioning system, sliding skylight with sunscreen, windshield and skylight washer/wiper, windshield sun visor, fire extinguisher, seat belt, USB charging port, pivoting cup holder, and dual cab-mounted LED work lights, and three camera package (rear-view, right side and hoists).

Swing

Variable speed, 360° continuous rotation. Planetary swing drive with foot actuated multi-disc brake. Spring-applied, hydraulically released swing brake. Two-position mechanical swing lock pin, operated from cab. Maximum speed: 2 rpm.

Counterweight

13 245 kg (29,200 lb) hydraulically installed and removed. Controls located on both sides of superstructure.

Hoist (main and optional auxiliary hoist)

Planetary reduction driven by axial piston motor. Grooved drum with automatic spring applied multi-disk wet brake. Electronic hoist drum rotation indicator. Third wrap indicator with hoist function cut-out standard.

Maximum hoist single line pull: 1st layer: 10 930 kg (24,100 lb) 3rd layer: 9344 kg (20,600 lb) 6th layer: 7666 kg (16,900 lb)

Maximum permissible single line pull: 7784 kg (17,160 lb)

Maximum hoist single line speed (no load): 131 m/min (430 ft/min)

Rope construction: 35 x 7 rotation – resistant

Rope diameter: 19 mm (3/4 in)

Rope length: Main hoist: 250 m (820 ft) Auxiliary hoist: 185 m (607 ft)

SPECIFICATIONS

Carrier

Chassis

Parallel box section fabricated from high-strength, low-alloy steel with integral outrigger boxes, front and rear lift, tie-down, and towing lugs.

Outrigger System

Four hydraulic telescoping single stage double box beam outriggers with inverted jack cylinders and integral jack holding valves. Three position settings, 0%, 50%, and fully extended. Polymer outrigger floats 600 mm (23.6 in) diameter. Outrigger Monitoring System (OMS) with in-cylinder sensors. Outrigger beam position shown on RCL display.

Outrigger Controls

Main controls and digital level shown on operating display in cab. Extension and retraction are through the CCS system as well as the wireless rigging remote. Includes automatic leveling feature.

Hydraulic System

Two main pumps variable displacement piston and one gear with a combined output capacity of 507 L/min (134 gal/min). Maximum operating pressure: 276 bar (4000 psi). Return line in-tank filter with full flow by-pass protection and service indicator. Replaceable cartridge with 4 micron filtration rating per ISO cleanliness level of 17/15/12. Carrier mounted oil cooler with thermostatically controlled hydraulic motor driven fan / air to oil. System pressure test ports.

Engine (Tier 4 Final / Stage V)

Cummins B6.7L diesel engine with after-treatment system. Six-cylinder, turbo-charged and water cooled engine. 224 kw (300 HP) at 2,500 rpm. Maximum torque: 990 Nm (730 lb-ft) at 1500 rpm. Meets emissions per U.S. EPA Tier 4 Final and E.U. Stage V. Fuel requirement: Maximum of 15 ppm sulfur content (ultra low sulfur diesel). Diesel exhaust fluid required. Please review your country's appropriate engine emissions standards before selecting an engine.

Engine (Non-Certified)

Cummins B6.7L diesel engine without aftertreatment system. Six-cylinder, turbo-charged and water cooled engine. 224 kw (300 HP) at 2,500 rpm. Maximum torque: 1288 Nm (950 lb-ft) at 1500 rpm. Fuel requirement: Maximum of 5000 ppm sulfur diesel fuel. Please review your country's appropriate engine emissions standards before selecting an engine.

Fuel Tank Capacity

271 L (72 gal)

Transmission

Rangeshift with six forward and six reverse speeds. (Three speeds high and three speeds low). Front axle disconnect for 4 x 2 drive.

Axles

FRONT: Drive / steer with differential and planetary reduction hubs rigid mounted to frame.
REAR: Drive / steer with differential and planetary reduction hubs pivot mounted to frame. Automatic full hydraulic lockouts on rear axle permits. 254 mm (10 in) of oscillation only with boom centered over the front.

Brakes

Full hydraulic split (dual) circuit dry disc operating on all wheels with dual calipers. High pressure parking brake is spring applied / hydraulically released on the front axle input shaft.

Steering

Fully independent power steering. Front: Fully hydraulic steering wheel controlled. Rear: Fully hydraulic via separate momentary switch provides infinite variations 4 steering modes, front only, rear only, coordinated and crab. Rear steer not aligned indicator. Outside 4ws coordinated steer radius: 7,5 m (24.6 ft). Inside 4ws coordinated steer radius: 4,8 m (15.8 ft).

* Denotes optional equipment

SPECIFICATIONS

Tires

29.5 x 25 – 34 bias ply rating.

Electrical System

Two 12 V maintenance-free batteries with disconnect.
24 V system / 24 V lighting.

Lighting

Full LED lighting package including turn indicators; head, tail, brake and hazard warning lights; carrier side mounted work lights and work lights mounted on cab front.

Maximum Drive Speed

24,1 km/h (15 mph) with counterweight installed.

Gradeability (theoretical)

99% to drive train stall based on 59 197 (130,507 lb) GVW with 29.5 x 25 tires, standard counterweight, auxiliary hoist and manual bi-fold extension.

Miscellaneous Standard Equipment

Full length aluminum decking, dual rear view mirrors, hook block tie-down, electronic back-up alarm, covered deck storage compartment, hot water cab heater / defroster, cab air conditioner, hourmeter, A/V warning system, combination lift/tie-down/towing lugs, coolant sight level indicator, hoist access platform, storage boxes on both sides of carrier and cribbing storage on left side of carrier.

* Optional equipment

- Auxiliary Hoist Package: Includes auxiliary hoist with electronic hoist drum rotation indicator, third wrap indicator with hoist function cut-out, 185 m (607 ft) of 19 mm (¾ in.) of 35 x 7 class rotation resistant wire rope.
- Auxiliary Lighting and Convenience Package: Includes superstructure mounted amber flashing beacon, dual base boom mounted LED work lights controlled from cab and in-cab RCL light bar.
- 10,5 m – 17,6 m (34.5 ft – 57.6 ft) manual bi-fold swingaway extension
- 10,5 m – 17,6 m (34.5 ft – 57.6 ft) hydraulic luffing extension
- 360° positive swing lock
- Rear pintle hitch
- Cab-controlled cross axle differential locks (front and rear)
- Wind speed indicator
- Boom mounted, boom position indicator light
- Vertical RCL light tower
- -29C / -20F cold weather package
- -40C / -40F arctic weather package
- Emergency stop buttons on each side of carrier
- Second beacon light
- Refinery package
- MAXbase – variable outrigger positioning system
- Bluetooth/AM/FM radio
- Heated seat
- CraneSTAR asset management system
